

Harvard University

The Study Board for the Strategic Management Program

Att. Special Students and Visiting Fellows Office

To whom it may concern

This letter is to support Moiz Hassan Khalil's application for studying at Harvard University. Moiz Khalil is a fourth-semester software engineering student at the Technical University of Denmark (DTU). I have known Mr. Moiz as the instructor and coordinator for the course 02402 Introduction to Statistics, which he completed with a top grade. The top grade in the course is sufficient evidence that Mr. Moiz is among the top 1 - 2% of the students with foundation statistics and R competence.

24 January 2024

Moiz's analytical skills, combined with his methodical approach to problem-solving, make him an asset to the exchange program at Harvard University, or any project he chooses to engage with.

I strongly recommend Moiz Khalil, and I believe that his continued pursuit of knowledge in strategic management at Harvard University will be marked by success and innovation.

I'll be glad to answer if you have any follow-up questions.

Best regards,

A handwritten signature in black ink, appearing to read 'Md Saifuddin Khalid', is written over a horizontal line.

Md Saifuddin Khalid

Associate Professor, PhD (HCCI), MSc & BSc. (Comp. Sci.)

Leader of LearnT - Centre for Digital Learning Technology

Department of Applied Mathematics and Computer Science
